

# ANNUAL SPONSORSHIP OPPORTUNITIES

**children's  
museum**  
OF ALAMANCE COUNTY

"I'VE GOT AN IDEA!"

# WHY SPONSOR AN EXHIBIT AT CMAC?

This program offers the opportunity to have your name, business, or organization represented on one of our exhibits here at CMAC, for a much lower cost than previous sponsorships that span several years. The name of the honoree or company will be displayed on/near the exhibit, and will be advertised in our social media, website, and a feature in our monthly newsletter.

## YOUR SPONSORSHIP PROVIDES:

Day to day supplies, including arts & crafts, cleaning, batteries, replacement toys, etc.

Implementation of new programming and opportunities offered by CMAC

Everyday expenses necessary to keep the museum's doors open - payroll, cleaning service, HVAC, etc.

New exhibits & features, and mandatory maintenance & updating of existing exhibits

They may not seem as exciting as other areas of the museum, but our built-in coat racks see quite a bit of traffic through the museum each day!

Built-in Coat Rack (2 available)

\$500 each

*May be sponsored together or separately*

As most families carry a diaper bag, coat, or purse - these giant built-in cubbies are the first thing our guests see during each visit.

**Sponsorships pending x2**

Funky, groovy, topsy-turvy!  
What better way to introduce  
the concepts of concave,  
convex, and reflections than a  
FUNhouse mirror?

## Funhouse Mirrors (2 available) \$500 each

*May be sponsored together or separately*

Located in the heart of our  
Science Adventure exhibit, our  
Fun House Mirrors elicit smiles,  
silly faces, and laughs from  
everyone who is reflected in them!

# Toddler Climber

\$500

The Toddler Climber is located in our Wobble & Roll exhibit - an area designed specifically for children aged 2 & under.

With an open concept and located in the middle of the museum, this area provides maximum visibility to all the goings-on at CMAC!

**Sponsored in honor of Lily & Phoebe**

The Building Zone -the exhibit this wall display overlooks- is the first exhibit you encounter after entering the museum.

## Building Zone Dump Truck \$500

An absolute favorite of children & parents alike, the Building Zone encourages children to create whatever they can imagine, and gives them plenty of space to build!

# Magnetic Gear Wall

\$750

Located on the transition wall between Science Adventure and the Artist's Workshop, this is a prime position to advertise your business.

The moveable, magnetic gears promote hand/eye coordination while allowing children to experiment with simple mechanics & physics.

# Velcro Wall Game

\$1,000

The Velcro Wall continues to be a favorite in our Science Adventure exhibit area. This over-sized tic-tac-toe board helps children with spatial reasoning, hand-eye coordination, and problem solving.

# Heart Drum

## \$1,500

Our Heart Drum will show you the rhythm & beats per minute of your heart - all you have to do is place your hands on the sensors.

Perfectly placed in our Health Zone exhibit between the dentist's office & the nursery, our Heart drum was featured in the news after use of the drum led a visiting grandfather to the discovery of a heart condition.

The Rocketship is also located in the Building Zone; the first exhibit you see when entering the museum!

## Rocketship \$1,500

With glowing stars on the inside, this massive structure will allow your little ones' imagination to soar to the moon!

# Smokestack

\$1,500

The Smokestack is located in the middle of CMAC's tiny town and offers a 360 degree sitting area for our guests.

From this central location you can view the entrances to the Textile Mill, Train Station, Farm House, Jane's Cafe & Post Office. If you are looking for widespread exposure this is the perfect sponsorship opportunity for you!

An iconic CMAC one-of-a-kind exhibit! Created by the Eastern Alamance High School Drafting class, this giant racecar houses a working track that children can send speeding cars down!

## Racetrack \$2,000

This exhibit brings out the kid in everyone - even the adults - and is a must-see for all guests visiting the museum.

# The Children's Museum of Alamance County

217 S Main Street  
Graham, NC 27253
